MEMORANDUM FOR: THE DIRECTOR

I have alerted both Joe Phillips and Mr. Horsey with respect to the issue of [] which is expected to appear on May 25. While Joe recognized this as a matter for the State Department, he seemed in doubt as to what, if anything, they could do about it. I mentioned, as one possibility, that they might attempt to get permission to straighten out some of the specific items before they actually got into print.

*Anyway, Joe
acknowledges that
it is State's
baby.*
